Crushing Rate (year to-date)	182	204	158	183

Comments

Harwood

A steady week of crushing after the Christmas break with 23,897 t of cane crushed at 171 t/hr. Cane quality improved through the week which reduced the high syrup loading in the factory a little.

Weekly averages:

- Avg CCS was 11.61 against a budget of 10.9.
- Avg cane purity was 83.29 against a budget of 82.9.
- Avg cane as was low at 1.13% against a budget of 1.85%.
- Avg cane fibre was 15.70 against a budget of 17.6.

Lost Time:

Total lost time for the week was 28.2 hrs.

Major lost time items were:

- 10.7 hrs due to cane supply.
- 7.0 hrs for the evaporator clean after the Christmas break.
- 6.85 hrs to repair the failed wet sugar conveyor belt.
- 2.4 hrs to numerous factory issues when restarting after Christmas break.

Weekly bin weights:

- Avg steel bin = 21.01 t.
- Avg aluminium bin = 25.63 t.
- Avg overall = 24.06 t.

We are constantly reviewing the remaining nominated crop and at this point believe the season will wrap up on, or around the 12th of January. We haven't tipped the last bin yet however I would like to thank the directors, the growers and harvesting groups for their patience and perseverance throughout a very difficult season.

Broadwater

Finished crushing on 10th December.

Condong

Finished crushing on 28th November.
